

# Melody George

## Low Code App Developer

I build No/Low-code, AI-powered automations, web bots, and workflows using platforms like n8n, Make, Taskmagic, and Zapier to solve real problems, save time, and reduce costs for businesses and users.

## WORK EXPERIENCE

### Automation Expert

#### Fiverr

03/2023 - Present Remote

*Fiverr is an Israeli multinational online marketplace for freelance services. Fiverr's connects freelancers to businesses looking for services.*

#### Achievements/Tasks

- Provided ongoing support and optimization for automated systems, with unique clients ensuring five star reviews and increase in success scores on fiverr.

Contact : Valentine "Xavier" Alule - 08115774517

## SKILLS

MAKE.COM | Business Process Automation | AI Chatbots | API'S | Marketing Automation | Webhooks

N8N.IO | Business Process Automation | AI Chatbots | API'S | Marketing Automation | Ai Agents | Custom Node Development

MISCELLANEOUS | User Experience Optimization | JavaScript | HTML 5 | Node.js | CSS 5 | Typescript

TASKMAGIC | Bot recording | Data/Web Scraping

VAPI AI | BLAND AI

## PROJECTS

### Automated Appointment Booking & Follow up (2023 - 2023)

- Engineered an automated appointment booking system integrating webhooks for initial requests and data storage. Leveraged OpenAI for intelligent processing. Implemented conditional routing and HTTP requests for communication and data handling. Achieved booking processes, reduced manual effort, and improved user engagement through timely follow ups.
- Integrated webhooks, data storage, OpenAI for processing, conditional routing, and HTTP requests.
- Streamlined booking, reduced manual effort, and improved user engagement through timely follow-ups.

### AI-Powered Crypto Price Bot for Telegram (2023 - 2024)

- Developed a Telegram bot leveraging the CMC Agent and Mistral Cloud Chat Model and N8N AI agent, to provide real-time cryptocurrency price updates via CoinMarketCap. Implemented a memory buffer for contextual interactions. Enabled users to query crypto prices directly within Telegram, delivering instant information and enhancing user convenience.
- Integrated Telegram triggers and send message functionalities with the CMC Agent, Mistral Cloud Chat Model, a memory buffer, and the CoinMarketCap API.
- Delivered instant cryptocurrency price information within Telegram, enhancing user convenience and accessibility.

### Automated Lead gen Data Workflow (Personal Project)

(03/2024 - 03/2024)

- I built a system that automatically moves and processes information. It takes data from Google Sheets, uses a tool called Apify to pull specific details, and connects with other online services. The final processed data is then organized back in Google Sheets. This automation made our data handling much faster, reduced mistakes from manual work, and made the information easier to find and use.
- The triggers from a search keyword in Google Sheets, utilizes google maps directory actor in Apify to search, and extracts relevant data back into another sheet. It further does email Enrichment, by searching the website data via external APIs. It uses a text parser tool, to create a regex that searches the websites for emails and extracted them and updates the rows.
- It makes lead gen easier, reduced manual entry errors, and improved data accessibility.

## EDUCATION

### University

#### Yaba College Of Technology

2017 - 2021

Courses

- Computer Science

B.S.C.

## HONORS

### ALX Software Engineering Scholarship

*Completed Full stacked A year program/Course*

## COURSEWORK

API Integration | RESTful API | JSON parsing | data transformation (09/2023 - Present)

Data Pipeline Automation (03/2023 - Present)

Workflow Automation Orchestration (02/2023 - Present)

AI AGENTS LLM BUILD (02/2023 - Present)

Business Process Optimization & Automation Strategy (02/2023 - Present)

Lead Gen| GHLI (02/2023 - Present)

## LANGUAGES

English

*Full Professional Proficiency*

French

*Professional Working Proficiency*

Spanish

*Professional Working Proficiency*

## INTERESTS

Digital innovation and emerging technologies

Attending tech meetups, hackathons, and conferences

Network Marketing

Personal Development

Book Reading

Football/Soccer Fanatic
